

Information on added value

With a broad range of electronic services the Compass Group, as a leading provider of business information, offers more knowledge through information and thus supports you in business processes and decisions.

More than 100 million retrievals per year and tens of thousands of users daily confirm us and are the reason for the continued development of our services.

Wirtschafts-Compass

Information in one place, intelligent, efficient

All information on businesses, persons and plots of land is up to date and comes from Austria's registers and is supplemented by research done by the Compass editors. The Wirtschafts-Compass offers detailed information up to and including annual financial statements, foundations of new business entities, and insolvencies.

In the case of changes you will be automatically notified via the monitoring feature. All shareholding structures can be easily viewed as organisational charts, as can beneficial owners or politically exposed persons.

You may immediately retrieve online excerpts from the Business Register, the Land Register, the Register of Beneficial Owners, the Central Register of Residents and other registers. Credit checks and property appraisals are also available from our partners.
